

Dr. Lynne D. Kitei: A National Treasure!

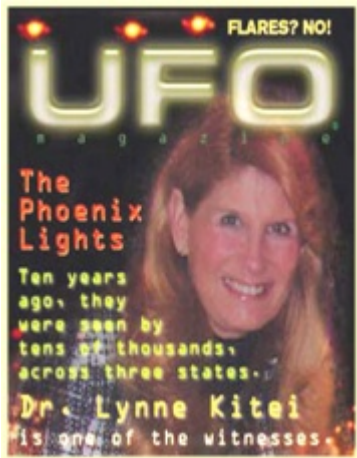

By Carol Lexter, Syndicated Columnist

Dr. Lynne Kitei, a woman for all seasons.

It is hard to change profession, relinquish an illustrious career to embrace a new one, and excel, all at once.

Dr. Lynne Kitei did just that! Before becoming a powerful voice of Ufology, Dr. Kitei was (and probably still is) an internationally acclaimed physician and health educator, and a world leading figure in the area of early disease detection and prevention. As a Chief Clinical Consultant at the Arizona Heart Institute's, Dr.

Kitei made her mark on the medical world. Today, Dr. Kitei embarks on a new journey; ufology and the paranormal. She pushed aside her successful medical career to pursue *The Phoenix Lights* book and award-winning Documentary project.

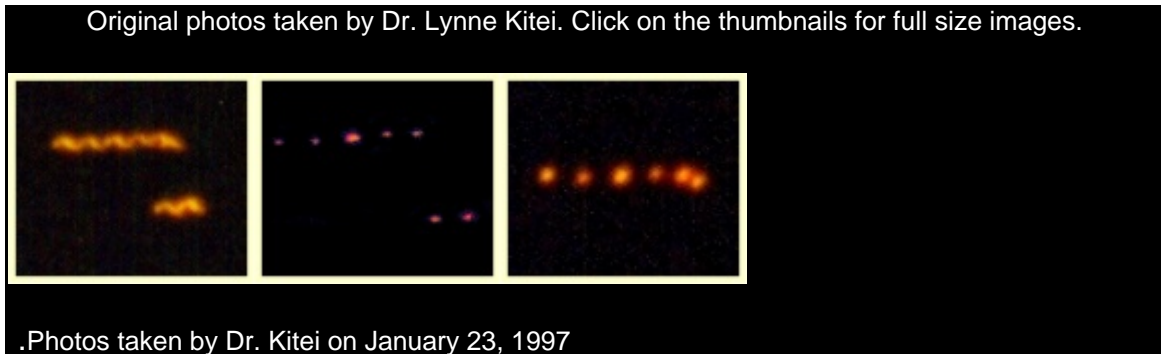

Dr. Kitei on the cover of UFO magazine.

Her official biography tells us that before her medical training, Dr. Lynne appeared in over 30 featured and starring roles in professional musical comedies including *Alice in Wonderland* with Sherman Hemsley, *Oklahoma* starring Gordon MacRae, *Guys & Dolls* starring Betty Grable, and understudied for Barbara Eden in *The Sound of Music*. She also played the role of "Florence Arizona" in the 20th Century box office hit *Raising Arizona* starring Nicolas Cage, Holly Hunter, Frances McDormand, and John Goodman. She has been called the "woman pioneer" of medical

communications in TV Guide after creating and producing innovative TV News health reports for NBC in Philadelphia in 1976. Since that time, Dr. Lynne has dedicated almost 30 years to global public awareness, wellness, and health education. She has appeared as the resident health reporter for NBC affiliates in Philadelphia, and Phoenix, and has been featured on USA Cable, FOX TV News, ABC, CNN and CBS affiliates, National Geographic TV, The Travel Channel, NBC Japan and MSNBC.

Besides the hundreds of radio and TV appearances sharing the historic Arizona mass sighting, Dr. Lynne has been touring the US and abroad, introducing screenings of the internationally award winning *Phoenix Lights* Documentary, as well as presentations for her bestselling book, *The Phoenix Lights*. Maximillien de Lafayette, author of the ***Biographical Encyclopedia of People in Ufology and Scientific Extraterrestrial Research*** portrayed her one of the most credible

researchers and authoritative authors in the field. Lafayette adds "She brings integrity, accuracy and wealth of information to the UFOs' world community. Her narrative style, careful analysis of events and honesty set her apart from the rest of the pack. No library on these phenomena is complete without Dr. Kitei's book and writings; they are essential!" Dr. Lynne Kitei is a national treasure. An extraordinary woman at so many levels. Buy her book, and don't ever miss her shows and guest appearances. She will mesmerize you!
